

## **H21. Rural – Waitākere Ranges Zone**

### **H21.1. Zone description**

The Rural – Waitākere Ranges Zone comprises most of the privately owned land around the periphery of the public open space and the regional park within the Waitakere Ranges Heritage Area. This typically contains small holdings and residential properties and has a natural character dominated by bush-clad land. It contains heritage features such as areas of contiguous native bush, coastal areas, significant landforms and geological sites and significant and other terrestrial and aquatic ecosystems.

In the centre of the zone is the Scenic Drive ridge and the forested upper reaches of the Ōrātia and Ōpānuku streams' catchments, the western and southern edges of which are bounded by large continuous areas of primary and regenerating indigenous rainforest, the Waitākere Ranges Regional Park and the public water supply catchments. The eastern edge is bounded by the orchards and farms of Ōrātia and Ōpānuku/Henderson Valley.

The zone provides limited opportunity for further growth and development. It recognises the local, regional and national significance of the area and aims to prevent subdivision, use and development from having adverse effects on the heritage features of the Waitakere Ranges Heritage Area. Existing and future land use and development is managed to maintain and protect heritage features. Activities provided for in the zone enable and support the social, economic, cultural and environmental well-being of the people that live and work in the zone and in its distinct communities, while protecting, restoring and enhancing the heritage features of the zone.

### **H21.2. Objectives**

- (1) Activities, development, and subdivision in the Rural – Waitākere Ranges Zone achieve the objectives of the Waitākere Ranges Heritage Area Overlay in Section D12.2.
- (2) Activities, development, and subdivision achieve the objectives of the Rural – Rural Conservation Zone unless otherwise provided for in Objectives H21.2(1) and (3).
- (3) The forested character and natural landscape qualities of the Rural – Waitākere Ranges Zone are maintained and enhanced.

### **H21.3. Policies**

- (1) Require subdivision, use and development to achieve the policies of the Waitākere Ranges Heritage Area Overlay in Section D12.3.
- (2) Provide for subdivision, use and development which supports the policies of the Rural – Rural Conservation Zone unless otherwise provided for in Policy H21.3(3).

(3) Design subdivision, activities and development to:

- (a) protect significant and outstanding native vegetation and fauna habitat, and where possible avoid clearance of, or damage to, this resource;
- (b) minimise adverse effects arising from placement of structures, roads and other infrastructure, on the overall resilience, biodiversity and integrity of ecosystems;
- (c) minimise adverse effects during the course of establishing the subdivision, activities and development including those arising from surveying; and
- (d) recognise the natural values of native vegetation and fauna habitat areas and the linkages between these areas.
