H4. Residential – Mixed Housing Suburban Zone

H4.1. Zone description
The Residential – Mixed Housing Suburban Zone is the most widespread residential zone covering many established suburbs and some greenfields areas. Much of the existing development in the zone is characterised by one or two storey, mainly stand-alone buildings, set back from site boundaries with landscaped gardens.

The zone enables intensification, while retaining a suburban built character. Development within the zone will generally be two storey detached and attached housing in a variety of types and sizes to provide housing choice. The height of permitted buildings is the main difference between this zone and the Residential – Mixed Housing Urban Zone which generally provides for three storey predominately attached dwellings.

Up to three dwellings are permitted as of right subject to compliance with the standards. This is to ensure a quality outcome for adjoining sites and the neighbourhood, as well as residents within the development site.

Resource consent is required for four or more dwellings and for other specified buildings in order to:

- achieve the planned suburban built character of the zone;
- achieve attractive and safe streets and public open spaces;
- manage the effects of development on neighbouring sites, including visual amenity, privacy and access to daylight and sunlight; and
- achieve high quality on-site living environments.

The resource consent requirements enable the design and layout of the development to be assessed; recognising that the need to achieve a quality design is increasingly important as the scale of development increases.

H4.2. Objectives

(1) Housing capacity, intensity and choice in the zone is increased.

(2) Development is in keeping with the neighbourhood's planned suburban built character of predominantly two storey buildings, in a variety of forms (attached and detached).

(3) Development provides quality on-site residential amenity for residents and adjoining sites and the street.

(4) Non-residential activities provide for the community’s social, economic and cultural well-being, while being compatible with the scale and intensity of development anticipated by the zone so as to contribute to the amenity of the neighbourhood.
H4.3. Policies

(1) Enable a variety of housing types including integrated residential development such as retirement villages.

(2) Achieve the planned suburban built character of predominantly two storey buildings, in a variety of forms by:

(a) limiting the height, bulk and form of development;

(b) managing the design and appearance of multiple-unit residential development; and

(c) requiring sufficient setbacks and landscaped areas.

(3) Encourage development to achieve attractive and safe streets and public open spaces including by:

(a) providing for passive surveillance

(b) optimising front yard landscaping

(c) minimising visual dominance of garage doors.

(4) Require the height, bulk and location of development to maintain a reasonable standard of sunlight access and privacy and to minimise visual dominance effects to adjoining sites.

(5) Require accommodation to be designed to meet the day to day needs of residents by:

(a) providing privacy and outlook; and

(b) providing access to daylight and sunlight and providing the amenities necessary for those residents.

(10) Recognise the functional and operational requirements of activities and development.

(6) Encourage accommodation to have useable and accessible outdoor living space.

(7) Restrict the maximum impervious area on a site in order to manage the amount of stormwater runoff generated by a development and ensure that adverse effects on water quality, quantity and amenity values are avoided or mitigated.

(8) Enable more efficient use of larger sites by providing for integrated residential development.

(9) Provide for non-residential activities that:

(a) support the social and economic well-being of the community;
(b) are in keeping with the scale and intensity of development anticipated within the zone;

(c) avoid, remedy or mitigate adverse effects on residential amenity; and

(d) will not detract from the vitality of the Business – City Centre Zone, Business – Metro Centre Zone and Business – Town Centre Zone.

H4.4. Activity table

Table H4.4.1 Activity table specifies the activity status of land use and development activities in the Residential – Mixed Housing Suburban Zone pursuant to section 9(3) of the Resource Management Act 1991.

H4.5. Notification

(1) Any application for resource consent for the following activities will be considered without public or limited notification or the need to obtain the written approval from affected parties unless the Council decides that special circumstances exist under section 95A(4) of the Resource Management Act 1991:

(a) four or more dwellings per site that comply with all of the standards listed in Table H4.4.1 Activity table

(b) an integrated residential development that complies with all of the standards listed in Table H4.4.1 Activity table;

(c) New buildings and additions to buildings which do not comply with H4.6.5 Height in relation to boundary, but comply with Standard H4.6.6 Alternative height in relation to boundary.

(d) development which does not comply with H4.6.14 (1a) Front, side and rear fences and walls; or

(e) development which does not comply with Standard H4.6.15 Minimum dwelling size.

(2) Any application for resource consent for an activity listed in Table H4.4.1 Activity table and which is not listed in H4.5(1) above will be subject to the normal tests for notification under the relevant sections of the Resource Management Act 1991.

(3) When deciding who is an affected person in relation to any activity for the purposes of section 95E of the Resource Management Act 1991 the Council will give specific consideration to those persons listed in Rule C1.13(4).

H4.6. Standards

H4.6.1. Activities listed in Table H4.4.1 Activity table

(1) Activities and buildings containing activities listed in Table H4.4.1 Activity table must comply with the standards listed in the column in Table H4.4.1 called Standards to be complied with.

H4.6.2. Home occupations

Purpose: to enable people to work from home at a scale that the residential character and amenity is maintained.

(1) A home occupation must comply with all the following standards:

(a) at least one person engaged in the home occupation must use the dwelling on the site as their principal place of residence;
(b) no more than two people who do not use the dwelling as their principal place of residence may work in the home occupation;

(c) no more than four people in total may work in the home occupation;

(d) the sale of goods or services from the home occupation that requires customers to come to the site and the delivery of goods to and from the site may not occur before 7am or after 7pm;

(e) car trips to and from the home occupation activity must not exceed 20 per day;

(f) heavy vehicle trips must not exceed two per week;

(g) no more than one commercial vehicle associated with the home occupation may be on site at any one time;

(h) storage for rubbish and recycling associated with the home occupation must be provided on site and screened from public view;

(i) materials or goods manufactured, serviced or repaired in the home occupation must be stored and worked on within a building on the same site; and

(j) goods sold from the home occupation must be:

   (i) goods produced on site; or

   (ii) goods that are primarily ordered by mail or electronic transaction and redistributed by post or courier; or

   (iii) goods ancillary and related to a service provided by the home occupation.

**H4.6.3. The conversion of a principal dwelling existing as at 30 September 2013 into a maximum of two dwellings**

Purpose: to enable a dwelling existing as at 30 September 2013 to be converted into a maximum of two dwellings and to provide for sufficient outdoor living space for each of the dwellings.

(1) Where a principal dwelling existing as at 30 September 2013 is proposed to be converted into a maximum of two dwellings each dwelling must have an outdoor living space that is:

   (a) at least 5m² for a studio or one-bedroom dwelling and 8m² for a two or more bedroom dwelling; and

   (b) at least 1.8m in depth; and

   (c) directly accessible from the dwelling.
H4.6.4. Building height

Purpose: to manage the height of buildings to:

- achieve the planned suburban built character of predominantly one to two storeys;
- minimise visual dominance effects;
- maintain a reasonable standard of residential amenity for adjoining sites; and
- provide some flexibility to enable variety in roof forms.

(1) Buildings must not exceed 8m in height except that 50 per cent of a building's roof in elevation, measured vertically from the junction between wall and roof, may exceed this height by 1m, where the entire roof slopes 15 degrees or more, as shown in Figure H4.6.4.1 Building height in the Residential – Mixed Housing Suburban Zone below.

Figure H4.6.4.1 Building height in the Residential – Mixed Housing Suburban Zone

H4.6.5. Height in relation to boundary

Purpose: to manage the height and bulk of buildings at boundaries to maintain a reasonable level of sunlight access and minimise adverse visual dominance effects to immediate neighbours.

(1) Buildings must not project beyond a 45 degree recession plane measured from a point 2.5m vertically above ground level along side and rear boundaries, as shown in Figure H4.6.5.1 Height in relation to boundary below.
Figure H4.6.5.1 Height in relation to boundary

(2) Standard H4.6.5(1) above does not apply to a boundary adjoining any of the following:

(a) a Business – City Centre Zone; Business – Metropolitan Centre Zone; Business – Town Centre Zone; Business – Local Centre Zone; Business – Neighbourhood Centre Zone; Business – Mixed Use Zone; Business – General Business Zone; Business – Business Park Zone; Business – Light Industry Zone and Business – Heavy Industry Zone; or

(b) sites exceeding 2,000m² within the: Open Space – Conservation Zone; Open Space – Informal Recreation Zone; Open Space – Sports and Active Recreation Zone; Open Space – Civic Spaces Zone; or the Open Space – Community Zone.

[New text to be inserted]

(3) Standard H4.6.5(1) above does not apply to site boundaries where there is an existing common wall between two buildings on adjacent sites or where a common wall is proposed.

(4) Where the boundary forms part of a legal right of way, entrance strip or access site, the standard applies from the farthest boundary of that legal right of way, entrance strip or access site.

(5) A gable end, dormer or roof may project beyond the recession plane where that portion beyond the recession plan is:

(a) no greater than 1.5m² in area and no greater than 1m in height; and
(b) no greater than 2.5m cumulatively in length measured along the edge of
the roof as shown in Figure H4.6.5.2 Exceptions for gable ends, dormers
and roof projections below.

Figure H4.6.5.2 Exceptions for gable ends, dormers and roof projections

(6) No more than two gable end, dormer or roof projections are allowed for every
6m length of site boundary.

(7) The height in relation to boundary standard does not apply to existing or
proposed internal boundaries within a site.

H4.6.6. Alternative height in relation to boundary

Purpose: to enable the efficient use of the site by providing design flexibility where a
building is located close to the street frontage, while maintaining a reasonable level
of sunlight access and minimising overlooking and privacy effects to immediate
neighbours.

(1) This standard is an alternative to the permitted Standard H4.6.5 Height in
relation to boundary and applies to development that is within 20m of the site
frontage.

(2) Buildings within 20m of the site frontage must not exceed a height of 3.6m
measured vertically above ground level at side and rear boundaries.
Thereafter, buildings must be set back one metre and then 0.3m for every
additional metre in height (73.3 degrees) up to 6.9m and then one metre for
every additional metre in height (45 degrees) as shown in Figure H4.6.6.1
Alternative height in relation to boundary below.
Figure H4.6.6.1 Alternative height in relation to boundary

(3) Standard H4.6.6(2) above does not apply to a boundary adjoining any of the following:

(a) a Business – City Centre Zone; Business Metropolitan Centre Zone; Business – Town Centre Zone; Business – Local Centre Zone; Business – Neighbourhood Centre Zone; Business – Mixed Use Zone; Business – General Business Zone; Business – Business Park Zone; Business – Light Industry Zone and Business – Heavy Industry Zone; or

(b) sites within the Open Space – Conservation Zone; Open Space – Informal Recreation Zone; Open Space – Sports and Active Recreation Zone; Open Space – Civic Spaces Zone; or the Open Space – Community Zone exceeding 2000m².

[New text to be inserted]

(4) Standard H4.6.6(2) above does not apply to site boundaries where there is an existing common wall between two buildings on adjacent sites or where a common wall is proposed.
(5) Where the boundary forms part of a legal right of way, entrance strip or access site, the standard applies from the farthest boundary of that legal right of way, entrance strip or access site.

(6) A gable end, dormer or roof may project beyond the recession plane where that portion beyond the recession plane is:

(a) no greater than 1.5m² in area and no greater than 1m in height; and

(b) no greater than 2.5m cumulatively in length measured along the edge of the roof as shown in Figure H4.6.6.2 Exceptions for gable ends and dormers and roof projections below.

Figure H4.6.6.2 Exceptions for gable ends, dormers and roof projections

(7) No more than two gable ends, dormer or roof projections are allowed for every 6m length of site boundary.

(8) The alternative height in relation to boundary standard does not apply to existing or proposed internal boundaries within a site.

H4.6.7. Yards

Purpose:

- to maintain the suburban built character of the streetscape and provide sufficient space for landscaping within the front yard;

- to maintain a reasonable standard of residential amenity for adjoining sites;

- to ensure buildings are adequately set back from lakes, streams and the coastal edge to maintain water quality and provide protection from natural hazards; and
• to enable buildings and services on the site or adjoining sites to be adequately maintained.

(1) A building or parts of a building must be set back from the relevant boundary by the minimum depth listed in Table H4.6.7.1 Yards below.

**Table H4.6.7.1 Yards**

<table>
<thead>
<tr>
<th>Yard</th>
<th>Minimum depth</th>
</tr>
</thead>
<tbody>
<tr>
<td>Front</td>
<td>3m</td>
</tr>
<tr>
<td>Side</td>
<td>1m</td>
</tr>
<tr>
<td>Rear</td>
<td>1m</td>
</tr>
<tr>
<td>Riparian</td>
<td>10m from the edge of all other permanent and intermittent streams</td>
</tr>
<tr>
<td>Lakeside</td>
<td>30m</td>
</tr>
<tr>
<td>Coastal protection yard</td>
<td>10m, or as otherwise specified in Appendix 6 Coastal protection yard</td>
</tr>
</tbody>
</table>

(2) Standard H4.6.7(1) does not apply to site boundaries where there is an existing common wall between two buildings on adjacent sites or where a common wall is proposed.

**H4.6.8. Maximum impervious area**

Purpose:

• to manage the amount of stormwater runoff generated by a development, particularly in relation to the capacity of the stormwater network and potential flood risks;

• to support the functioning of riparian yards, lakeside yards and coastal yards and water quality and ecology;

• to reinforce the building coverage and landscaped area standards; and

• to limit paved areas on a site to improve the site’s appearance and cumulatively maintain amenity values in a neighbourhood.

(1) The maximum impervious area must not exceed 60 per cent of site area.

(2) The maximum impervious area within a riparian yard, a lakeside yard or a coastal protection yard must not exceed 10 per cent of the riparian yard, the lakeside yard or the coastal protection yard area.

**H4.6.9. Building coverage**

Purpose: to manage the extent of buildings on a site to achieve the planned suburban built character of buildings.

(1) The maximum building coverage must not exceed 40 per cent of the net site area.

**H4.6.10. Landscaped area**

Purpose:
H4 Residential – Mixed Housing Suburban Zone

- to provide for quality living environments consistent with the planned suburban built character of buildings within a generally spacious setting; and
- to maintain the landscaped character of the streetscape within the zone.

(1) The minimum landscaped area must be at least 40 per cent of the net site area.

(2) At least 50 per cent of the area of the front yard must comprise landscaped area.

H4.6.11. Outlook space

Purpose:

- to ensure a reasonable standard of visual privacy between habitable rooms of different buildings, on the same or adjacent sites; and
- in combination with the daylight standard, manage visual dominance effects within a site by ensuring that habitable rooms have an outlook and sense of space.

(1) An outlook space must be provided from the face of a building containing windows to a habitable room. Where the room has two or more external faces with windows the outlook space must be provided from the face with the largest area of glazing.

(2) The minimum dimensions for a required outlook space are as follows:

(a) a principal living room of a dwelling or main living and dining area within a boarding house or supported residential care must have a outlook space with a minimum dimension of 6m in depth and 4m in width;

(b) a principal bedroom of a dwelling or a bedroom within a boarding house or supported residential care unit must have an outlook space with a minimum dimension of 3m in depth and 3m in width; and

(c) all other habitable rooms must have an outlook space with a minimum dimension of 1m in depth and 1m in width.

(3) The depth of the outlook space is measured at right angles to and horizontal from the window to which it applies.

(4) The width of the outlook space is measured from the centre point of the largest window on the building face to which it applies.

(5) The height of the outlook space is the same as the floor height, measured from floor to ceiling, of the building face to which the standard applies.

(6) Outlook spaces may be within the site, over a public street, or other public open space.

(7) Outlook spaces required from different rooms within the same building may overlap.

(8) Outlook spaces may overlap where they are on the same wall plane.
(9) Outlook spaces must:

(a) be clear and unobstructed by buildings;

(b) not extend over adjacent sites, except for where the outlook space is over a public street or public open space as outlined in Standard H4.6.11(6) above; and

(c) not extend over an outlook spaces or outdoor living space required by another dwelling.

**Figure H4.6.11.1 Required outlook space**

**H4.6.12. Daylight**

Purpose:

- to ensure adequate daylight for living areas and bedrooms in dwellings, supported residential care and boarding houses; and

- in combination with the outlook standard, manage visual dominance effects within a site by ensuring that habitable rooms have an outlook and sense of space.

(1) Where the proposed building and/or opposite building contains principal living room or bedroom windows in a dwelling, or main living/dining area or bedroom windows in supported residential care and boarding houses, then:

a) That part of a building higher than 3m opposite buildings within the same site is limited in height to twice the horizontal distance between the two buildings for a length defined by a 55 degree arc from the centre of the window. The arc may be swung to within 35 degrees of the plane of the
wall containing the window as shown in Figure H4.6.12.2 Required setbacks for daylight below.

Refer to Table H4.6.12.1 Maximum height of the part of a building within a site facing a principal living room or bedroom window within the same site; Figure H4.6.12.1 Required setbacks for daylight and Figure H4.6.12.2 Required setbacks for daylight below).

(2) Where the principal living room, main living/dining area or bedroom has two or more external faces with windows, Standard H4.6.12(1) above will apply to the largest window.

(3) Where the window is above ground level, the height restriction is calculated from the floor level of the room containing the window.

(4) Standards H4.6.12(1), (2) and (3) do not apply to development opposite the first 5m of a building which faces the street, measured from the front corner of the building.

H4.6.13. Outdoor living space

Purpose: to provide dwellings, supported residential care and boarding houses with outdoor living space that is of a functional size and dimension, has access to sunlight, and is directly accessible from the principal living room, dining room or kitchen and is separated from vehicle access and manoeuvring areas.
(1) A dwelling, supported residential care or boarding house at ground floor level, must have an outdoor living space that is at least 20m² that comprises ground floor and/or balcony/roof terrace space that:

(a) where located at ground level has no dimension less than 4m and has a gradient not exceeding 1 in 20; and/or

(b) where provided in the form of balcony, patio or roof terrace is at least 5m² and has a minimum dimension of 1.8m; and

(c) is accessible from the dwelling, supported residential care unit or boarding house; and

(d) is free of buildings, parking spaces, servicing and manoeuvring areas.

(2) A dwelling, supported residential care or boarding house located above ground floor level must have an outdoor living space in the form of a balcony, patio or roof terrace that:

(a) is at least 5m² for studio and one-bedroom dwellings and has a minimum dimension of 1.8m; or

(b) is at least 8m² for two or more bedroom dwellings and has a minimum dimension of 1.8m; and

(c) is accessible from the dwelling, supported residential care unit or boarding house.

(3) Where outdoor living space required by Standard H4.6.13(1) or Standard H4.6.13(2) above is provided at ground level, and is located south of any building located on the same site, the southern boundary of that space must be separated from any wall or building by at least 2m + 0.9(h), where (h) is the height of the wall or building as shown in the Figure H4.6.13.1 Location of outdoor living space below. For the purpose of this standard south is defined as between 135 and 225 degrees.
H4 Residential – Mixed Housing Suburban Zone

Figure H4.6.13.1 Location of outdoor living space

H4.6.14. Front, side and rear fences and walls

Purpose: to enable fences and walls to be constructed on a front, side or rear boundary or within a front, side or rear yard to a height sufficient to:

- provide privacy or dwellings while enabling opportunities for passive surveillance of the street
- minimise visual dominance effects to immediate neighbours and the street.

(1) Fences or walls or a combination of these structures (whether separate or joined together) must not exceed the height specified below, measured from the ground level at the boundary:

(a) Within the front yard, either:

(i) 1.4m in height, or
(ii) 1.8m in height for no more than 50 per cent of the site frontage and 1.4m for the remainder, or
(iii) 1.8m in height if the fence is at least 50 per cent visually open as viewed perpendicular to the front boundary.

(b) Within the side and rear yards: 2m.
H4.6.15. Minimum dwelling size

Purpose: to ensure dwellings are functional and of a sufficient size to provide for the day to day needs of residents, based on the number of occupants the dwelling is designed to accommodate.

(1) Dwellings must have a minimum net internal floor area as follows:
   (a) 30m² for studio dwellings.
   (b) 45m² for one or more bedroom dwellings.

H4.7. Assessment – controlled activities

There are no controlled activities in this zone.

H4.8. Assessment – restricted discretionary activities

H4.8.1. Matters of discretion

The Council will restrict its discretion to the following matters when assessing a restricted discretionary activity resource consent application:

(1) for supported residential care accommodating greater than 10 people per site inclusive of staff and residents; boarding houses accommodating greater than 10 people per site inclusive of staff and residents; visitor accommodation accommodating greater than 10 people per site inclusive of staff and visitors; dairies up to 100m² gross floor area per site; care centres accommodating greater than 10 people per site excluding staff; community facilities; and healthcare facilities up to 200m² gross floor area per site:
(a) the effects on the neighbourhood character, residential amenity, safety, and the surrounding residential area from all of the following:

(i) building intensity, scale, location, form and appearance;

(ii) traffic;

(iii) design of parking and access; and

(iv) noise, lighting and hours of operation.

(b) Infrastructure and servicing.

(2) for four or more dwellings per site:

(a) the effects on the neighbourhood character, residential amenity, safety and the surrounding residential area from all of the following:

(i) building intensity, scale, location, form and appearance;

(ii) traffic;

and

(iii) design of parking and access.

(b) all of the following standards:

(i) Standard H4.6.8 Maximum impervious areas;

(ii) Standard H4.6.9 Building coverage;

(iii) Standard H4.6.10 Landscaped area;

(iv) Standard H4.6.11 Outlook space;

(v) Standard H4.6.12 Daylight;

(vi) Standard H4.6.13 Outdoor living space;

(vii) Standard H4.6.14 Front, side and rear fences and walls; and

(viii) Standard H4.6.15 Minimum dwelling size.

(c) Infrastructure and servicing.

(3) for integrated residential development:

(a) the effects on the neighbourhood character, residential amenity, safety, and the surrounding residential area from all of the following:

(i) building intensity, scale, location, form and appearance;

(ii) traffic;

(iii) design of parking and access; and

(iv) noise, lighting and hours of operation.

(b) all of the following standards:

(i) Standard H4.6.8 Maximum impervious areas;
(ii) Standard H4.6.9 Building coverage;
(iii) Standard H4.6.10 Landscaped area;
(iv) Standard H4.6.11 Outlook space;
(v) Standard H4.6.12 Daylight;
(vi) Standard H4.6.13 Outdoor living space;
(vii) Standard H4.6.14 Front, side and rear fences and walls; and
(viii) Standard H4.6.15 Minimum dwelling size.

(c) Infrastructure and servicing.

(4) for buildings that do not comply with Standard H4.6.4 Building height; Standard H4.6.5 Height in relation to boundary; Standard H4.6.6 Alternative height in relation to boundary; Standard H4.6.7 Yards; Standard H4.6.8 Maximum impervious areas; Standard H4.6.9 Building coverage; Standard H4.6.10 Landscaped area; Standard H4.6.11 Outlook space; Standard H4.6.12 Daylight; Standard H4.6.13 Outdoor living space; Standard H4.6.14 Front, side and rear fences and walls; Standard H4.6.15 Minimum dwelling size:

(a) any policy which is relevant to the standard;
(b) the purpose of the standard;
(c) the effects of the infringement of the standard;
(d) the effects on the rural and coastal character of the zone;
(e) the effects on the amenity of neighbouring sites;
(f) the effects of any special or unusual characteristic of the site which is relevant to the standard;
(g) the characteristics of the development;
(h) any other matters specifically listed for the standard; and
(i) where more than one standard will be infringed, the effects of all infringements.

(5) For new buildings and additions to buildings which do not comply with H4.6.5. Height in relation to boundary, but comply with H4.6.6 Alternative height in relation to boundary:

(a) Sunlight access;
(b) Attractiveness and safety of the street; and
(c) Overlooking and Privacy.
**H4.8.2. Assessment criteria**

The Council will consider the assessment criteria below for restricted discretionary activities to the extent relevant to the proposal:

(1) for supported residential care accommodating greater than 10 people per site inclusive of staff and residents; boarding houses accommodating greater than 10 people per site inclusive of staff and residents; visitor accommodation accommodating greater than 10 people per site inclusive of staff and visitors; dairies up to 100m² gross floor area per site; care centres accommodating greater than 10 people per site excluding staff; community facilities; and healthcare facilities up to 200m² gross floor area per site:

(a) infrastructure and servicing:

(i) Whether there is adequate capacity in the existing stormwater and public reticulated water supply and wastewater network to service the proposed development.

(ii) Where adequate network capacity is not available, whether adequate mitigation is proposed.

(b) building intensity, scale, location, form and appearance:

(i) whether the intensity and scale of the activity, the building location, form and appearance is compatible with the character and residential amenity provided for within the zone and compatible with the surrounding residential area.

(c) traffic:

(i) whether the activity avoids or mitigates high levels of additional non-residential traffic on local roads.

(d) design of parking and access:

(i) whether adequate parking and access is provided or required.

(e) noise, lighting and hours of operation:

(i) whether noise and lighting and the hours of operation of the activity avoids, remedies or mitigates adverse effects on the residential amenity of surrounding properties, by:

- locating noisy activities away from neighbouring residential boundaries;
- screening or other design features; and
- controlling the hours of operation and operational measures.
(2) for four or more dwellings on a site:

(a) the extent to which or whether the development achieves the purpose outlined in the following standards or what alternatives are provided that result in the same or a better outcome:

(i) Standard H4.6.8 Maximum impervious areas;
(ii) Standard H4.6.9 Building coverage;
(iii) Standard H4.6.10 Landscaped area;
(iv) Standard H4.6.11 Outlook space;
(v) Standard H4.6.12 Daylight;
(vi) Standard H4.6.13 Outdoor living space;
(vii) Standard H4.6.14 Front, side and rear fences and walls; and
(viii) Standard H4.6.15 Minimum dwelling size

(b) The extent to which the development contributes to a variety of housing types in the zone and is in keeping with the neighbourhood’s planned suburban build character of predominantly two storey buildings (attached or detached) by limiting the height, bulk and form of the development and managing the design and appearance as well as providing sufficient setbacks and landscaped areas.

(c) [deleted]

(d) The extent to which development achieves attractive and safe streets and public open space by:

(i) providing doors, windows and/or balconies facing the street and public open space

(ii) minimising tall, visually impermeable fences

(iii) designing large scale development (generally more than 15 dwellings) to provide for variations in building form and/or façade design as viewed from streets and public open spaces.

(iv) optimising front yard landscaping

(v) providing safe pedestrian access to buildings from the street

(vi) minimising the visual dominance of garage doors, walkways or staircases to upper level dwellings, and carparking within buildings as viewed from streets or public open spaces.

(e) The extent to which the height, bulk and location of the development maintains a reasonable standard of sunlight access and privacy and minimises visual dominance to adjoining sites.

(f) The extent to which dwellings:
H4 Residential – Mixed Housing Suburban Zone

(i) Orientate and locate windows to optimise privacy and encourage natural cross ventilation within the dwelling

(ii) Optimise sunlight and daylight access based on orientation, function, window design and location, and depth of the dwelling floor space

(iii) Provide secure and conveniently accessible storage for the number and type of occupants the dwelling is designed to accommodate.

(iv) Provide the necessary waste collection and recycling facilities in locations conveniently accessible and screened from streets and public open spaces.

(g) The extent to which outdoor living space:

(i) Provides for access to sunlight

(ii) Provides privacy between the outdoor living space of adjacent dwellings on the same site and between outdoor living space and the street.

(iii) When provided at ground level, is located on generally flat land or is otherwise functional.

(h) refer to Policy H4.3(7); and

(i) infrastructure and servicing:

(i) Whether there is adequate capacity in the existing stormwater and public reticulated water supply and wastewater network to service the proposed development.

(ii) Where adequate network capacity is not available, whether adequate mitigation is proposed.

(3) for integrated residential development:

(a) the extent to which or whether the development achieves the purpose outlined in the following standards or what alternatives are provided that result in the same or a better outcome:

(i) Standard H4.6.8 Maximum impervious areas;

(ii) Standard H4.6.9 Building coverage;

(iii) Standard H4.6.10 Landscaped area;

(iv) Standard H4.6.11 Outlook space;

(v) Standard H4.6.12 Daylight;

(vi) Standard H4.6.13 Outdoor living space; and

(vii) Standard H4.6.14 Front, side and rear fences and walls; and

(viii) Standard H4.6.15 Minimum dwelling size (excluding retirement villages).
(b) refer to Policy H4.3(1);
(c) refer to Policy H4.3(2);
(d) refer to Policy H4.3(3);
(e) refer to Policy H4.3(4);
(f) refer to Policy H4.3(5);
(g) refer to Policy H4.3(6);
(h) refer to Policy H4.3(7);
(i) refer to Policy H4.3(8).

(j) refer to Policy H4.3(9); and

(k) infrastructure and servicing:

(i) Whether there is adequate capacity in the existing stormwater and public reticulated water supply and wastewater network to service the proposed development.

(ii) Where adequate network capacity is not available, whether adequate mitigation is proposed.

(4) For new buildings and additions to buildings which do not comply with H4.6.5. Height in relation to boundary, but comply with H4.6.6 Alternative height in relation to boundary:

**Sunlight access**

(a) Whether sunlight access to the outdoor living space of an existing dwelling on a neighbouring site satisfies the following criterion:

Four hours of sunlight is retained between the hours of 9am – 4pm during the Equinox (22 September):

(i) over 75% of the existing outdoor living space where the area of the space is greater than the minimum required by Standard H4.6.13: or

(ii) over 100% of existing outdoor living space where the area of this space is equal to or less than the minimum required by Standard H4.6.13.

(b) In circumstances where sunlight access to the outdoor living space of an existing dwelling on a neighbouring site is less than the outcome referenced in (a):

(i) The extent to which there is any reduction in sunlight access as a consequence of the proposed development, beyond that enabled
through compliance with Standard H4.6.5 Height in relation to boundary control; and

(ii) The extent to which the building affects the area and duration of sunlight access to the outdoor living space of an existing dwelling on a neighbouring site, taking into account site orientation, topography, vegetation and existing or consented development.

Attractiveness and safety of the street

(c) The extent to which those parts of buildings located closest to the front boundary achieve attractive and safe streets by:

(i) providing doors, windows and balconies facing the street;
(ii) optimising front yard landscaping;
(iii) providing safe pedestrian access to buildings from the street; and
(iv) minimising the visual dominance of garage doors as viewed from the street.

Overlooking and privacy

(d) The extent to which direct overlooking of a neighbour’s habitable room windows and outdoor living space is minimised to maintain a reasonable standard of privacy, including through the design and location of habitable room windows, balconies or terraces, setbacks, or screening.

(5) for building height:

(a) refer to Policy H4.3(2);
(b) refer to Policy H4.3(4); and
(c) refer to Policy H4.3(5).

(6) for height in relation to boundary:

(a) refer to Policy H4.3(2);
(b) refer to Policy H4.3(4); and
(c) refer to Policy H4.3(5).

(7) for alternative height in relation to boundary infringements:

(a) refer to Policy H4.3(2);
(b) refer to Policy H4.3(3);
(c) refer to Policy H4.3(4); and
(d) refer to Policy H4.3(5).

(8) for yards:

(a) refer to Policy H4.3(2); and
(b) refer to Policy H4.3(4).

(9) for maximum impervious areas:
   (a) refer to Policy H4.3(7).

(10) for building coverage:
   (a) refer to Policy H4.3(2); and
   (b) refer to Policy H4.3(4).

(11) for landscaped area:
   (a) refer to Policy H4.3(2);
   (b) refer to Policy H4.3(4);
   (c) refer to Policy H4.3(5); and
   (d) refer to Policy H4.3(6).

(12) for outlook space:
   (a) refer to Policy H4.3(2);
   (b) refer to Policy H4.3(4);
   (c) refer to Policy H4.3(5); and
   (d) refer to Policy H4.3(6).

(13) for daylight:
   (a) refer to Policy H4.3(2);
   (b) refer to Policy H4.3(4); and
   (c) refer to Policy H4.3(5).

(14) for outdoor living space:
   (a) refer to Policy H4.3(2);
   (b) refer to Policy H4.3(4);
   (c) refer to Policy H4.3(5); and
   (d) refer to Policy H4.3(6).

(15) for front, side and rear fences and walls:
   (a) refer to Policy H4.3(2);
   (b) refer to Policy H4.3(3); and
   (c) refer to Policy H4.3(4).
(16) For minimum dwelling size:

(a) Policy H4.3(5)

H4.9. Special information requirements

There are no special information requirements in this zone.
