

The Proposed Auckland Unitary Plan (notified 30 September 2013)

1.11 Waitematā Navigation Channel

1. Activity table

[rcp]

The provisions of the General Coastal Marine zone apply except as specified in the table below.

Activity	Sub-precinct A	Sub-precinct B
Maintenance dredging	RD	P
Capital works dredging	RD	RD

2. Notification

1. Applications for maintenance dredging within sub-precinct A will be processed on a non-notified basis.

3. Land use controls

1. Maintenance dredging in sub-precinct B
 - a. No more than 15,000m³ of sediment (in situ measure) may be dredged in the sub-precinct within the calendar year.
 - b. The maximum volume of material to be dredged must not exceed 75,000m³ over any 5 year period.
 - c. Maintenance dredging above these levels will be a restricted discretionary activity.

4. Assessment - Restricted discretionary activities

4.1 Matters of discretion

The council will restrict its discretion to the matters below for the activities listed as restricted discretionary in the precinct activity table.

1. the procedures for the dredging of contaminated sediment, including timing and hours of operation
2. dredging location and extent
3. effects on coastal processes
4. effects on ecological values
5. effects on water quality
6. effects on public access, navigation and safety
7. consent duration and monitoring.

4.2 Assessment criteria

1. The assessment criteria in [clause 5](#) of the General Coastal Marine zone apply to restricted discretionary activities within this precinct.
