

H30. Special Purpose – Tertiary Education Zone

H30.1. Description

The Special Purpose – Tertiary Education Zone applies to tertiary education facilities in locations where the surrounding zoning will not appropriately provide for the ongoing operation and development of the facilities or where the facilities are not subject to a precinct plan.

Generally, these are large facilities in campus-style developments, with extensive and highly visible buildings, substantial parking areas and significant areas of private open space. Increasingly, business, offices, research and laboratory facilities are co-locating within these campuses, to the benefit of the tertiary institution, the students and the economic development of Auckland.

The purpose of the zone is to enable the development and operation of a range of activities to cater for the diverse requirements of the student population, employees and visitors. Community use of the facilities is also provided for.

H30.2. Objectives

- (1) Tertiary education facilities meet the education needs of their students, facilitate research and economic development, and provide for the well-being of employees, students and visitors.
- (2) Other activities which are compatible with, or accessory to, tertiary education facilities are provided for where they do not compromise the use of the zone for tertiary education purposes.
- (3) Adverse effects of tertiary education facilities and associated activities and their use on adjacent areas are avoided, remedied or mitigated.

H30.3. Policies

- (1) Enable a wide range of activities on tertiary education facility sites, including tertiary education, research, health, recreation, student accommodation and appropriate accessory activities.
- (2) Provide for a range of other activities which are compatible with, or accessory to, tertiary education facilities including research, innovation, learning or related work experience where they are of a character and scale which will not displace tertiary education facilities.
- (3) Require new buildings and significant additions to buildings that adjoin streets and public open spaces to be designed to contribute to the maintenance and enhancement of amenity values while enabling the efficient use of the site.
- (4) Encourage new buildings to be designed to provide a high standard of amenity and safety.

H30 Special purpose Tertiary Education Zone

- (5) Require screening or landscaping of waste management facilities, service areas and buildings and parking to enhance their appearance when viewed from adjacent residential zones, streets and public open spaces.
- (6) Provide for accessory and compatible activities to meet the needs of employees, students and visitors without undermining the function of nearby town centres as the primary location for business activities.
- (7) Require new buildings to be designed in a manner that respects any adjacent scheduled historic heritage places on the site.
- (8) Minimise significant adverse effects of overshadowing, visual dominance and loss of visual privacy on adjacent properties by use of graduated building heights and by locating higher buildings away from the zone boundary.

H30.4. Activity table

Table H30.4.1 Activity table specifies the activity status of land use and development activities in the Special Purpose – Tertiary Education Zone pursuant to section 9(3) of the Resource Management Act 1991.

Where a tertiary education facility comprises adjoining multiple sites but has a common Special Purpose – Tertiary Education Zone, the entire facility will be treated as a single site for the purpose of applying the activity table and standards.
