

Schedule 5 Significant Ecological Areas - Marine where mangroves are a minor component or absent

**Schedule 5 Significant Ecological Areas - Marine where mangroves are a minor component or absent**

[rcp]

[The regional coastal plan [rcp] provisions are not operative until the Minister of Conservation has formally approved the regional coastal plan part of the Auckland Unitary Plan.]

| SEA-M1 Number | Name                             | Feature/ value                                                                                                       |
|---------------|----------------------------------|----------------------------------------------------------------------------------------------------------------------|
| 10 b, c       | South Kaipara Head               | Papakanui dune field, Kaipara South Head (Kaipara sand dunes, northern unconsolidated dune area, and Papakanui Spit) |
| 11            | Oaia Island                      | Oaia Island                                                                                                          |
| 13 c          | West Coast (Muriwai to Karekare) | Coastal flora and fauna                                                                                              |
| 13 h          | West Coast (Muriwai to Karekare) | O'Neill Bay coastal ecosystem                                                                                        |
| 13 i          | West Coast (Muriwai to Karekare) | Coastal ecosystem                                                                                                    |
| 13 k          | West Coast (Muriwai to Karekare) | Coastal herb field and shrub land on rocky coast                                                                     |
| 15 a          | Omanawanui                       | Marine fauna                                                                                                         |
| 23 b          | Ambury                           | Important seabird and wading bird habitat                                                                            |
| 27 b          | Puhinui                          | Wairoa Island bird roost                                                                                             |
| 30 b          | Clarkes Beach to Karaka Point    | Shell banks (bird roost and wading bird feeding ground)                                                              |
| 32 b          | Waipipi                          | Shell banks (bird roost and wading bird feeding ground)                                                              |
| 34 b          | Pollok Spit                      | Sand spit (high tide roost)                                                                                          |
| 39 b          | Firth of Thames                  | Original vegetation grading to kowhai forest fragment                                                                |
| 43 b          | Turanga Creek Estuary            | Shell banks (bird roost)                                                                                             |
| 43 f          | Turanga Creek Estuary            | Shell banks (bird roost)                                                                                             |
| 49 c          | Tamaki Estuary West              | Sand-shell spit (high tide roost)                                                                                    |
| 65 b          | Weiti Estuary                    | Weiti River shell spits                                                                                              |
| 75 b          | Waiwera, Wenderholm and Puhoi    | Intertidal substrates and wave-cut platforms (array of habitats)                                                     |
| 83 b          | Whangateau Harbour               | Sandspit (high tide roost and breeding ground for New Zealand Dotterel)                                              |
| 91            | Beehive Island, Kawau            | Shell sand beach (roosting and breeding for threatened coastal birds)                                                |
| 99            | Motukaha Island and Fossil Bay   | Seabird breeding site                                                                                                |
| 109           | Horuhoru Island                  | Gannet breeding site                                                                                                 |
| 112           | Onetangi Beach                   | Small section of pingao                                                                                              |

Schedule 5 Significant Ecological Areas - Marine where mangroves are a minor component or absent

|          |                                   |                                 |
|----------|-----------------------------------|---------------------------------|
| 117 b, c | Northern Great Barrier island     | Rakitu Island coastal ecosystem |
| 133 a    | The Noises                        | Coastal birds                   |
| 134      | Mawhitipana headland and foredune | Pingao                          |
