

I502. Albany Centre Precinct

I502.1. Precinct description

The Albany Centre Precinct covers the large emerging metropolitan centre located to the west of State Highway 1 and contained by Oteha Valley Road and Albany Expressway in the northern urban part of the North Shore.

The precinct recognises the component parts of the Business - Metropolitan Centre Zone Albany Centre and the supporting role of the southern section covered by Business - Business Park Zone. It identifies four sub-precincts with different development emphases and requires activities to develop in accordance with Albany Centre: Precinct plan 1 – Albany Centre.

The main retail focus of the centre is the Civic Crescent area. The mainstreet type retail area in the north east will act as a catalyst for the grouping of employment-related activities in this area, and help to link the Albany busway station via the Main Street area with the shopping centre in the Civic Crescent area. Retail activities should generally be limited outside of these two areas to those activities that support the day-to-day needs of office workers and residents, or involve retail formats that cannot be integrated into the Civic Crescent and Main Street areas.

Commercial office development is encouraged throughout the centre, particularly in areas north of Don Mckinnon Drive and also extensively in the southern section in the business park environment.

Intensive residential development is encouraged to locate in certain parts of the precinct where the retail and commercial focus is not as strong, particularly in areas beyond the core area circled by Don Mckinnon Drive.

Sub-precinct A

Is applied to particular areas within the Albany metropolitan centre which are suited for high-density residential apartment living, with limited opportunity for convenience retail at ground level.

Sub-precinct B

Is applied to particular areas within the Albany metropolitan centre which seek to encourage the establishment of employment-generating activities, such as high-density office development, supported by a limited range of convenience retail activities.

Sub-precinct C

Is applied to particular areas within the Albany metropolitan centre which are suited for car-orientated commercial and entertainment activities, limiting retail to those formats generally considered unsuitable for other higher amenity areas of the Albany Centre precincts.

Sub-precinct D

Is applied to particular areas within the southern section of Albany Centre which are suited for office and light commercial activities and limited retail. This reflects the approved comprehensive development plan for this area.

The zoning of land within this precinct is Business - Metropolitan Centre Zone, Business - Business Park Zone, Open Space – Community Zone, Open Space – Informal Recreation Zone.

I502.2. Objectives

- (1) Development of the centre reflects the key features and outcomes of I502.10.1 Albany Centre: Precinct plan 1 – Albany Centre.
- (2) A range of sub-precincts within Albany Centre where different predominant activities are located, along with other support activities is provided.
- (3) Ongoing use and development of the Albany integrated shopping centre, North Shore Domain and North Harbour Stadium is not compromised by the location and development of other activities within Albany Centre.
- (4) In Sub-precinct A, high-density residential development is the primary activity, and a limited range of retail uses is enabled where they support the desirability and attractiveness of the area.
- (5) In Sub-precinct B:
 - (a) significant employment opportunities are provided by high-intensity development in Albany Centre to support future population growth; and
 - (b) high-density office development is the primary activity, with a limited range of retail uses where they support the desirability and attractiveness of the area.
- (6) In Sub-precinct C, car-orientated commercial and entertainment activities are the primary use, with a limited range of retail uses where they support the desirability and attractiveness of the area.
- (7) In Sub-precinct D:
 - (a) significant employment opportunities are provided by high-quality office and light commercial development in the southern section of Albany Centre to support future population growth; and
 - (b) office development in a business park environment is the primary activity, with a limited and specific location for retail uses to support the desirability and attractiveness of the area that do not detract from the retail focus provided in the central and northern part of Albany (refer to Albany Centre: Precinct plan 3 – Sub-precinct D activity areas).

The zone, Auckland-wide overlay objectives apply in this precinct in addition to those specified above.

I502.3. Policies

- (1) Enable an appropriate mix and layout of activities, buildings, movement of pedestrians, cyclists and vehicles, and open space networks within the precinct

so as to achieve a sustainable, safe and visually attractive environment, with vibrant public spaces that encourage community interaction.

- (2) Provide for a range of opportunities for retail activities within the precinct that support the desired employment, urban form and character outcomes for its different sub-precincts.
- (3) Provide opportunities for intensively developed apartments within specified parts of the Albany Centre to a high standard of residential amenity and design.
- (4) Require that any development within Sub-precinct D provides sufficient off-street parking and is designed and located to facilitate traffic movement (both vehicular and pedestrian) within the Albany Centre.
- (5) Require development to create a connected green network that links the different parts of the precinct with parks and other public spaces as described in I502.10.1 Albany Centre: Precinct plan 1 – Albany Centre.
- (6) Encourage all buildings, additions, alterations or development to make positive contributions to the amenity of the precinct and its surrounds, help to achieve a comprehensively-planned, well-integrated and attractive centre, and achieve high quality urban design outcomes including:
 - (a) the creation of an attractive, active and lively retail street frontage at Cornerstone Drive between Don Mckinnon Drive and Corban Avenue;
 - (b) enabling vehicle, cycle and pedestrian access throughout the centre to help link southern areas of the centre, including a new street between Don Mckinnon Drive and Civic Crescent; and
 - (c) maintaining views and pedestrian and cycle access along the axis to and from Spencer Ridge Reserve and the central park area shown on Albany Centre: Precinct plan 1 – Albany Centre.
- (7) Require development to complement, and where necessary provide for, pedestrian linkages between the North Shore Domain and North Harbour Stadium and the major public transport points and public parking areas within and adjacent to the wider Albany Centre.
- (8) Focus retail and entertainment activities within the precinct predominantly on public streets, particularly the central block south of Civic Crescent and the development of a Main Street area linking the busway station with this area.
- (9) Require activities adjoining the new Main Street on Cornerstone Drive to support the development of a vibrant main street that encourages daytime and evening use of the area through the mix of activities, including retail, cafes, restaurants, cinemas, offices and above ground floor residential apartments.

- (10) Recognise the North Shore Domain and North Harbour Stadium as important regional facilities by requiring new residential development to avoid, remedy or mitigate against any adverse effects generated beyond its boundaries.
- (11) Require development within the centre to be of an urban character appropriate to its sub-regional role, with the creation of a strong local identity.
- (12) In Sub-precinct A, require development of high-density residential to provide for apartments with a high standard of residential amenity and a limited amount of convenience retail.
- (13) In Sub-precinct B:
 - (a) require that the potential of the sub-precinct to provide for employment opportunities is not compromised by predominantly low-density development, or reverse sensitivity associated with inappropriate forms or location of residential development; and
 - (b) encourage employment-generating activities such as high-density office development by limiting retailing activities that provide for the convenience needs of office activities and which do not diminish the amenity and vibrancy of the sub-precinct.
- (14) In Sub-precinct C, encourage the development of a general business area by enabling the establishment of car-orientated commercial and entertainment activities and limiting retailing activities to those formats which are unsuitable for the other higher amenity parts of the Albany Centre Precinct.
- (15) In Sub-precinct D:
 - (a) encourage employment-generating activities such as office development in a high-quality business park setting; and
 - (b) restrict retailing activities to locations that provide for the needs of the office and light commercial activities (refer to Albany Centre: Precinct Plan 3 – Sub-precinct D activity areas).

The zone, Auckland-wide and overlay policies apply in this precinct in addition to those specified above.

I502.4. Activity table
