

I306. Avondale 2 Precinct

I306.1. Precinct Description

The Avondale 2 Precinct applies to an area that is bounded by Racecourse Parade to the north, Great North Road to the east and a small area of Avondale Town Centre to the south-east.

The purpose of the precinct is to provide town centre type activities, with limited opportunity for larger retail activities. The precinct is divided into sub-precincts A, B and C.

Sub-precincts A and B are intended to provide town centre activities that integrate with the Great North Road main street.

Sub-precinct C is intended to facilitate the development of an off main street town centre environment that supports the Great North Road main street environment, provides opportunities for larger scale (non-retail) commercial and institutional activities, and community facilities.

The transport infrastructure for the Avondale 2 Precinct should complement and support the Avondale 1 Precinct, particularly vehicle, pedestrian and cycle connectivity into and through both precincts.

The zoning of land within this precinct is Business – Town Centre Zone.

I306.2. Objectives

- (1) The intensification of commercial, residential, community and civic activities is provided for, with limited opportunities for large scale retail activities.
- (2) The scale and intensity of development is increased while ensuring development is in keeping with Avondale Town Centre's planned future form and quality.
- (3) Subdivision and development is designed and implemented in a comprehensive, efficient and integrated way which achieves a high quality urban environment and recognises the Avondale Town Centre and the wider landscape features of the area.
- (4) The transport network within the Avondale 2 Precinct is integrated with the surrounding transport network including connections for vehicles, pedestrians and cyclists between Ash Street, through Avondale 1 Precinct, to Avondale Town Centre and to public transport.

The overlay, Auckland-wide and zone objectives apply in this precinct in addition to those specified above.

 - (b) supports public transport, pedestrian and cycle networks and the ability to change transport modes; and

- (6) Discourage dwellings at ground floor in sub-precincts A and B and enable dwellings above ground floor.
